April 2009

Tepato Systems offers software consulting services to help you, the small business owner. If you want to make better business decisions, software and other technology tools should be key parts of your business strategy.

Tepato Hosting Clients Get More Space - Free!

More Value for Your Money

If your website is currently hosted by Tepato Systems, we have good news for you. As hosting space has become less expensive over time, we are now increasing the sizes of our hosting packages - but not the prices.

For example, if you were in a 10 MB hosting package, you will now have 25 MB of space. If you had 25 MB, you'll now have 50 MB, and so on. Here is a list of our new hosting package sizes:

- *Small - 25 MB (formerly 10 MB)*
- *Medium - 50 MB (formerly 25 MB)*
- *Large - 75 MB (formerly 50 MB)*
- *Extra Large - 100 MB (formerly 75 MB)*
- *Jumbo - 125 MB (formerly 100 MB)*

Your monthly cost is not changing - we're just increasing the allotted space for all of our clients. We appreciate your business and want to share our savings with our valued clients.

If you have a website that is not currently hosted with Tepato Systems, and would like to switch, please contact us. We also offer maintenance packages which include labor to maintain your site, along with hosting space, for additional savings.

If your business or non-profit group needs a website, or if you're unhappy with your current site or your vendor, please contact us. We can design a site to reflect your business and marketing strategies, maintain it and also host it for competitive prices.
