SCI Record Book Database Now Available

Trophy Record Keeping Made Easy

May 2006

Cherie,

Does your Chapter currently produce a record book of member trophies? Do you find that the maintenance of that trophy data is a time consuming job? Do you find that your volunteers burn out quickly when they are responsible for the record book maintenance?

The Tepato Solution

Tepato Systems has just released new Record Book Management software.

This system can help your Chapter to keep your record book up to date. It can also produce the record book itself in the proper format for printing and for publication on your chapter web site. The price below includes the software and the effort to load your data for the first time. After that, you simply need to keep it current.

**For more information,
please see the User
Guide**

Our Price: \$500

Add or update member and trophy information using this screen.

Easily create your Record Book in a format suitable for printing.

Tepato Systems can help your Chapter to maximize the productivity of your volunteers. Your membership expects a quality Record Book. With this Tepato software, it is possible to give them one without sacrificing a lot of time and effort.

Sincerely,

Cherie Tieppo
