Tepato Systems Supports SCI Chapters

Technology can be a big asset for your non-profit organization

May 2006

Greetings!

As a Life Member of Safari Club International, the President of Tepato Systems believes in providing technology assistance to the local chapters.

We currently support websites for four chapters - [Novi](#), [Lansing Area](#), [Flint Regional](#) and [Paso Del Norte](#).

We also periodically create software to help chapters do their business more efficiently, such as maintaining the chapter's record book.

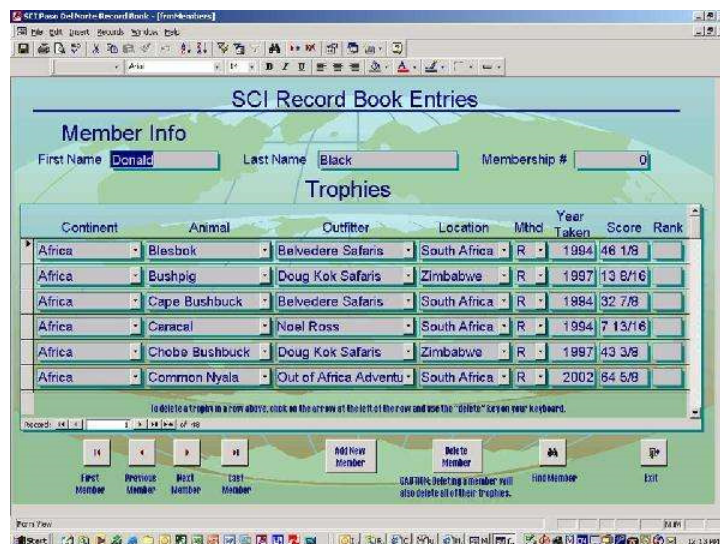

SCI Software

Record Book Data Management

Does your Chapter currently produce a record book of member trophies? Do you find that the maintenance of that trophy data is a time consuming job? Do you find that your volunteers burn out quickly when they are responsible for the record book maintenance?

Tepato Systems has just released new Record Book Management software that can help you.

This system can help your Chapter to keep your record book up to date. It can also produce the record book itself in the proper format for printing and for publication on your chapter web site. The price below includes the

Add or update member and trophy information using this screen.

software and the effort to load your data for the first time. After that, you simply need to keep it current.

For more information, please see the User Guide

Our Price: \$500

Easily create your Record Book in a format suitable for printing.

Tepato Systems can help your Chapter to maximize the productivity of your volunteers. Your membership expects a quality Record Book. With this Tepato software, it is possible to give them one without sacrificing a lot of time and effort.

Sincerely,

Cherie Tieppo
