## Computer Running Slow?

### Free Tools Available

*Every now and then, my laptop starts to really get slow, so I'll do some maintenance on it. I'm not quite ready to commit to buying a new one, since I have so much STUFF on it, so I have to keep the old gal running, you know?*

*I've just heard about two interesting utilities online, and they're both FREE. Check these out - they are easy to download, easy to use, and will help to clean up the mess that gets created over time on your computer (like cookies from the internet - ugh!).*

*Thanks to Chris Truax of the BNI Team Referrals chapter for the tip.*
