

August 2009

Tepato Systems offers software development and website design services to help Safari Club Chapters.

It can be difficult to promote the important programs of your chapter, but a website can make a big difference. If you improve the effectiveness of your chapter's marketing it can increase both your membership numbers and your fundraising revenue.

Every chapter has administrative tasks for its board members to handle, such as ticket sales, record book administration or auction items tracking, and we have custom-made databases that can save time and improve the quality of the data.

Chapter Award Submissions due on Sept. 15

Chapter Publication and Website Awards

Please see the articles below to get all of the details on the awards and how to nominate your chapter for all of the different categories that apply to you.

New and Improved Record Book Database Coming Soon

Now Uses Latest List of Animals With Regional Minimums

SCI recently published a new list of animals which was broken down by region, with different minimum scores. Tepato Systems offers a database to do record book administration, and a new version will be released in early September which will incorporate this new information.

Please contact us for more details.

Help with your Chapter's data or website is just a phone call away... contact Tepato Systems for a free initial assessment of

your needs.
