

Tepato Systems offers software consulting services to help small business owners and non-profit groups.

If you want to make better business decisions, software and other technology tools should be key parts of your business strategy.

## The 10 Commandments for Computer Safety

### Thou Shalt Not: 10 Computer Security Commandments

This is a really good article on the things to avoid if you want to protect yourself and your identity while using your computer.

## Comparison of Free Web Version of Office Applications

### Google Apps vs. Free Version of Microsoft Office Apps

If you've never tried the free, web-based version of Microsoft's Office applications, you may want to consider using Google's similar applications instead. Here's an article that compares them, feature by feature.
