

September 23, 2011

Tepato Systems offers software consulting services to help small business owners and non-profit groups.

If you want to make better business decisions, software and other technology tools should be key parts of your business strategy.

This newsletter has security and Windows tips that could help any computer user, whether they're a novice or an expert.

Securing Your Wi-Fi Network at Home

PC World Articles on Securing Your Wi-Fi

If you have wi-fi at home and are not securing it, you need to take action. Here are some good articles to help you set it up with a password, along with other tips on security.

Restoring the Quick Launch Bar in Windows 7

Windows 7 Eliminated "Quick Launch" Bar - How to Get it Back

If you use Windows 7 and miss the Quick Launch Bar that used to be along the bottom of your desktop, there is a way to turn it back on. See the support article below from Microsoft.
